PLEASURE

BY THE TANKFUL!

When you fill your tank with gasoline, do you get just transportation, or do you invest in real driving pleasure?

Thousands of motorists have discovered that the difference between the two is the difference between ordinary gasolines and Associated Aviation Ethyl.

There's a feel of unlimited power, of thrilling throttle-control, of satisfaction in your car with Associated Aviation Ethyl—pleasures that you must miss with other gasolines.

That's why new thousands are switching to this "Fuel of the Future." Motorists who count every penny, motorists who have been content with the cheapest gasolines, have found that this premium gasoline gives them more for their money than any other.

INTRODUCTION

R. L. POLK & CO., publishers of the San Francisco Directory, as well as more than 700 other city, county, state and national directories, present to subscribers and the general public, this, the 1936 edition of the San Francisco Directory.

Confidence in the growth of San Francisco's wealth, industry and population, and in the advancement of its municipal and social activities, will be created as sections of this directory are consulted, for the directory is a mirror truly reflecting San Francisco to the world.

The enviable place occupied by R. L. POLK & CO.'S directories in offices, stores, libraries and homes throughout the country has been established by rendering the best in directory service. With an unrivaled organization, having the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the San Francisco Directory will fulfill its mission as a source of authentic information pertaining to the city.

POPULATION

The estimated population of San Francisco is 835,464, based on the number of individuals' names in the alphabetical section of the directory, with due allowance for children and for women whose names are not listed separately from those of their husbands.

FOUR MAJOR DEPARTMENTS

The several essential departments are arranged in the following order:

THE BUYER'S GUIDE, pages 1701 to 1752, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of San Francisco. These pages will be found particularly interesting and instructive to substantial purchasing factors. The advertisements have been carefully grouped by departments and are indexed under headings descriptive of the business represented. This is reference advertising at its best and, as such, merits a survey by all buyers anxious to familiarize themselves with sources of supply. The city's activities, in many interesting phases, are authentically pictured. In an ambitious and progressive community like San Francisco, the necessity of having this kind of information available is very great and, frequently, pressing. General appreciation of this fact is evidenced by the liberal support the city directory enjoys in the many fields which it serves.

THE ALPHABETICAL LIST OF NAMES of residents, business firms and corporations is included in pages 37 to 1276.

THE STREET AND AVENUE GUIDE is embraced in pages 17 to 35; in this feature the names of all streets and avenues are arranged alphabetically, giving beginning and ending, and line of general direction.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 1753 to 1892. This department lists the various manufacturing, mercantile and professional interests in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable epitome of the business interests of the community. "The Directory is the common intermediary between Buyer and Seller." As such it plays no small part in the daily doings of the business world. "More goods are bought and sold through the Classified Business Directory than through any other medium."

MUNICIPAL PUBLICITY

The directory reflects the achievements and ambitions of the city, depicting in truthful terms what it has to offer as a place of residence, as a business location, as an industrial site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the directory in Directory Libraries, where they are readily available for free public reference and serve as perpetual and reliable advertisements of San Francisco, for business men, everywhere, realize that the city directory represents a community as it really is.

THE SAN FRANCISCO DIRECTORY LIBRARY

Through the courtesy of the publishers of the San Francisco City Directory, a Directory Library is maintained in the offices of the publishers at 604 Mission street, for free reference by the general public. This library is one of the system of more than 400 installed and operated in the chief cities of the U. S. and Canada, under the supervision of the Association of North American Directory Publishers, of which R. L. Polk & Co. is a member.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the city directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO., Publishers.

SAN FRANCISCO

(Prepared by the San Francisco Chamber of Commerce)

HISTORICAL—San Francisco is located centrally on the coast in 37° 47′ 22-25″ N. Latitude and 122° 25′ 40-76″ W. Longitude and situated on a peninsula bounded on the west by the Pacific Ocean, the north and east by the Bay of San Francisco and on the south by wooded hills and fertile valleys. Its elevation extends from sea level to 965 feet. The city covers an area of about 42.19 square miles and is built principally on hills. The population as of January 1, 1936, amounted to 717,838.

The San Francisco Bay Region was discovered in July, 1769, by Don Gaspar de Portola's soldiers, who were seeking the Monterey Bay. In 1775 Don Manuel Ayala sailed the first ship through the Golden Gate into the San Francisco Bay. The San Carlos was the name of the vessel.

Years before, however, Sir Francis Drake brought his vessel, the Golden Hind, close to the Golden Gate and ran her ashore at what is now known as Drake's Bay This was in 1579 and the first religious service in the English language was held on the Pacific Coast by the chaplain of the Golden Hind.

In 1776 a land expedition commanded by Colonel Juan Bautista de Anza arrived on the San Francisco peninsula and established the Presidio and the Mission Dolores. In 1777 Padre Junipero Serra, father of the California missions, arrived in San Francisco. The settlement was known as Yerba Buena until 1847, when it became San Francisco.

In 1806 the Russians attempted to establish themselves in and about San Francisco. They established a settlement at Fort Ross, near Santa Rosa, but after a few years gave it up, disposing of all movable fixtures and arms to Capt. John A. Sutter of Sacramento.

In 1846 war was declared by the United States on Mexico and on July 9, 1848, Capt. John B. Montgomery of the United States Navy arrived in the sloop-of-war "Portsmouth" and raised the American flag in what is now Portsmouth Square; thus without great excitement San Francisco passed from Spanish to Mexican and finally American rule.

San Francisco's greatest excitement perhaps came with the discovery of gold in 1848. People rushed here by every known mode of transportation and in thousands. The population increased steadily and the port became the most important on the Pacific Coast, which position it has steadily maintained.

Because of the number of lawless individuals during the fifties, the citizens organized the Vigilance Committee and after a short campaign succeeded in ridding the city of the law breakers.

GOVERNMENT—San Francisco has a combined City and County Government functioning as a Municipal Corporation, which began January 8, 1932, to operate under a new Charter (Freeholders). Under this new Charter the Legislative Powers are vested in a Board of Supervisors consisting of 11 members. The Administrative Powers are vested in a Mayor and a Chief Administrative Officer, the latter appointed by the Mayor. The people elect the Mayor, Assessor, Treasurer, Sheriff, Public Defender, Supervisors, District Attorney, City Attorney, Municipal and Superior Court Judges and the members of the Board of Education.

The salary of the Mayor is $10,000 per year and the major Departments under him include the Police, Fire, Park, Recreation, and Library, the Art Commission, the Utilities Commission, Civil Service Commission, and City Planning Commission.

The Chief Administrative Officer, appointed by the Mayor, receives a salary of $12,000 a year and has under him the following Departments: Departments of Finance and Records, Purchasing, Real Estate, Department of Public Works, Department of Electricity, Street Traffic Advisory Board, Department of Public Health, County Welfare Department, Coroner's Office, Horticultural Inspection Department, and Department of Weights and Measures.

The Controller is responsible to the Mayor and is appointed by him subject to the confirmation and approval by the Board of Supervisors.

HARBOR AND COMMERCE—Centered in the San Francisco Bay Area, San Francisco is an important port of general commerce, handling a large and valuable domestic and foreign trade. It is the main gateway of commerce for the vast territory of the Central Pacific Coast Area and Intermountain States. The Bay extends from the Golden Gate to the confluence of the Sacramento and San Joaquin rivers on the northeast, and to a point near San Jose on the south, covering a area of 450 square miles. The deep-water commerce enters San Francisco Bay through the Golden Gate, which is but one mile wide, thus affording natural protection from the ocean to the waters of the San Francisco Bay. To this has been added the most comprehensive docking and berthing facilities, rail and freight connections, modern and well-equipped warehouses, etc. San Francisco harbor has 17 miles of berthing space and this is constantly being added to; there are 8,122,524 square feet of cargo area, with a capacity of 2,030,600 tons of cargo; 43 modern piers; facilities to dock the largest vessels; seven drydocks; 160 spur tracks; 66 miles of harbor trackage connecting piers and warehouses; car capacity for 3600 cars; 42 cranes, derricks and aerials.

The harbor is controlled by the State of California and is governed by a board of harbor commissioners appointed by the Governor. Of the 43 piers, most of them are assigned to steamship companies having their own fleets and operating their own schedules. San Francisco harbor facilities are valued at $80,000,000.

The water-borne commerce of San Francisco has trebled since pre-war days and now ranks fourth of all ports in the United States and 32 per cent above any other Pacific Coast port. San Francisco, according to the U. S. Department of Commerce, at the close of 1934 ranked sixth among the 48 custom districts of the U. S. in the value of imports and exports, exceeding all other Pacific Coast ports.

Arrivals and departures of vessels show the following increases:

	Arrivals	Registered Tonnage	Departures	Registered Tonnage
1923	6792	15,049,446	6830	14,802,870
1934	5824	16,296,314	5852	16,292,255
Exports during 1934 amounted to				$92,035,277
Imports during 1934 amounted to				54,918,805

The principal exports by tons are mineral oil, gasoline, dried and canned fruits, barley, fresh fruits, petroleum asphalt, lumber, iron, steel scrap, salt.

The principal imports are sugar, copra, paper, coffee, burlap and bags, fertilizers, raw silk, and ores.

The 1934 report of the U. S. Army Engineers shows the distribution of the tonnage, domestic and foreign, as follows:

Total tonnage, San Francisco Bay	22,727,718 Tons
Foreign tonnage	2,690,136 "
Inland waterway tonnage	6,496,407 "
Domestic Coastwise and Intercoastal tonnage	13,541,175 "

Besides the movement of commodities by water, there is a large rail traffic in San Francisco; during 1934 it reached 179,595 carloadings and unloadings, not including less-than-carload business.

San Francisco is also the ocean port for the great inland empire of California, 500 miles in length, 50 miles wide and containing 16,100,000 acres of irrigable land, 5,000,000 acres of which is under irrigation. Approximately 33 per cent of the tonnage of the port is received from points on the Sacramento and San Joaquin Rivers, which drain a large portion of the "back country."

San Francisco is the port of call for 166 steamship lines. Of these 18 are intercoastal; 16 Trans-Pacific, Hawaiian and Oriental; 16 United Kingdom and Continental Europe; 12 Central and South America; 6 Australasia; 18 coastwise; 2 Africa, 2 round the world. There are also 19 inland water carriers with routes to Sacramento and Stockton. The remainder are owned and operated by oil, lumber and fishing interests.

San Francisco is served by four transcontinental railroads, which also operate north and south on the Pacific Coast and throughout the State of California.

INDUSTRIES—The 1931 (latest available) Federal Census of Manufacturing showed the following conditions to exist in San Francisco and the territory included in what is known as the Metropolitan Area; San Francisco—Number of establishments, 2267; wage-earners, 34,402; wages, $47,321,083; value of products, $317,986,065. Metropolitan Area (nine counties)—Number of establishments, 3540; wage-earners, 70,775; wages, $96,143,541; value of products, $767,865,179.

The principal industries in San Francisco are: Printing and publishing, coffee and spice, meat slaughtering and packing, bread and bakery products, men's and women's clothing, foundry and machine shop products, canning and preserving, furniture, confectionery, ice cream, flour and grain products, rice, chocolate and cocoa products, structural iron and steel, electrical machinery, tobacco, cigars, cigarettes, tinware, lumber, jute bags, paper boxes, shoes, leather goods of all kinds, etc.

TRADE—Trade at retail in San Francisco, amounting to $499,060,416, was reported by the U. S. Census Bureau in the 1930 census. The report shows 11,034 retail stores with a total annual business of $499,060,416, a payroll of $70,362,231 and full-time employment of 44,562 men and women. The per capita sales at retail amount to $788, compared to $576 in the State.

Trade at wholesale in San Francisco, amounting to $1,784,174,952, was reported in the 1930 census. This volume led all other Pacific Coast cities by more than 400 million dollars. The reports show 3154 establishments engaged in trade at wholesale, a payroll of $77,535,544, and employment for 37,545.

FINANCIAL—San Francisco has been made the Financial Center of the West principally because of the operating advantages available to those institutions which have centered their activities here. Fifteen hundred national firms have established Western headquarters in San Francisco. The Federal Reserve Bank of San Francisco is the headquarters of the Twelfth Federal Reserve District, the third largest district in the nation. One of the major regional Stock Exchanges in the United States is maintained in San Francisco. There is also a San Francisco Curb Exchange and a San Francisco Mining Exchange. The fourth largest bank in the United States has its headquarters here, and six of the banks in San Francisco are among the first fifty banks of the nation. (**Editor's Note**: Practically all of the material on most of pages was prepared by the C. of C.) Bank clearings in 1934 totaled $5,475,193,000; bank debits for 1934 totaled $8,180,813,000.

San Francisco Stock Exchange and San Francisco Curb Exchange stock sales for 1934 amounted to $80,690,770 in market value. Insurance—More than $319,000,000 in premiums and assessments were col-

lected in California during 1934, and San Francisco is the West's Insurance Center. Eight internationally known outside insurance companies have constructed their own buildings in San Francisco. Per capita wealth —Based on total value of all property in the city, the per capita wealth in 1934 was $3,739. Postal receipts in 1934 were $8,407,264.

PUBLIC BUILDINGS—First comes the group in the Civic Center, declared by the Duke of Connaught to be the finest thing of its kind in the world. The group consists: (1) City Hall, of classic design, surmounted by an immense dome, higher than the dome of the Capitol at Washington. Cost, $4,000,000. (2) Exposition Auditorium, seating capacity of 12,000 in the main auditorium, with numerous small halls; cost, $2,000,000. (3) San Francisco Public Library; cost, $1,500,000. (4) State Building; cost, $1,000,000. (5) War Memorial group of buildings, as a part of the Civic Center, cost, $4,000,000, consisting of civic opera house, American Legion halls, etc. A Federal building under construction will cost $3,000,000.

California Palace of the Legion of Honor, in Lincoln Park, overlooking the Golden Gate, is a replica of the Palace of the Legion of Honor in Paris. It was presented to the city. The structure cost $2,000,000. United States Mint, located at Fifth and Mission streets, built in 1874; Post Office Building, corner of Seventh and Mission streets; Ferry Building, at the foot of Market street on the waterfront, built by the State in 1896 at a cost of $1,000,000. It is 659 feet long and 156 feet wide, and in addition to serving as a ferryboat terminal, contains many State offices. The Customs House and United States Appraiser's Building represent an expenditure of more than $1,000,000. In Golden Gate Park are located the De Young Memorial Museum, Academy of Sciences, Steinhart Aquarium, Museum of Anthropology. At Kearny and Washington streets is the Hall of Justice, erected in 1910 at a cost of $1,000,000, containing police courts and the criminal department of the superior court. Two gigantic bridge projects are underway, the Golden Gate Bridge, to cost $33,000,000, and the San Francisco-Oakland Bay Bridge, to cost $78,000,000.

PARKS—San Francisco is noted for its beautiful and extensive parks. There are 45 parks and 52 playgrounds, with a total acreage of 3268; others are under development. In addition to the municipal parks, the several government reservations, the largest of which is the Presidio, comprising 1542 acres, all go toward augmenting the agregate area of the city parks. The area given does not include the numerous golf courses in and about the city. More than $15,000,000 has been expended on municipal parks since 1870. All of San Francisco's parks are "man-made." Originally only sand dunes marked the spots where today are gardens of rarest flowers, shrubs and giant trees. Even lakes, streams, waterfalls, hills, valleys and dales were worked out by man, to say nothing of the miles of walks, bridle paths and boulevards traversing the parks. Golden Gate Park is one of the world's most noted playgrounds. It comprises 1013 acres and is about 3 miles long and a half-mile wide, extending from Stanyan street on the east to the Pacific Ocean on the west and lies in the midst of San Francisco's choice residential districts.

In the park are many museums, monuments, an aviary, aquarium, music temple, stadium, tennis courts, baseball grounds, football grounds, trotting and pacing horse track, athletic field and running track paddocks, and children's playgrounds. There are more than 25 miles of improved driveways in the park. Wild animals of many species are to be seen, while every bird and squirrel known to California roams or flies at will through the dense woods and shrubbery. At the western end of the park is to be seen the sloop "Gjoa," the only vessel that ever navigated the Northwest Passage, and which was given to San Francisco by its owner and explorer, Captain Roald Amundsen, discoverer of the South Pole also; the gift was accepted by San Francisco June 16, 1909. The ship was hauled upon the beach and is protected by a high iron fence.

SOCIAL—San Francisco has upward of 250 churches representing many denominations and 589 listed societies, clubs, lodges, and fraternal groups, including Literary, Historical, Military, Religious, Sporting, Miscellaneous and Foreign. The cosmopolitan character of the city is reflected in the diversification of these groups and in the congregation of the churces, which include English, German, Italian, Spanish, Scandinavian, Russian, Japanese, Chinese and Indians.

There is a variety of interesting and unusual events constantly taking place, lectures, concerts, readings, recitals, Symphony Orchestra, and special exhibits of drawing, painting, sculpture and other art material, and many are free, or admission very nominal. Two public art galleries are always open, and several, semi-public, offer changing collections.

There are a number of libraries both public and private in character. There are 472,450 volumes in the city library.

The Municipal Auditorium, seating 12,000 and containing a magnificent organ, is in use for a variety of events daily throughout the year. The Civic Opera House and War Memorial Building have been recently completed, providing a home for Opera, the Symphony and a permanent War Relics Museum. San Francisco is the first city in the Nation to have a Civic Opera House.

HEALTH—San Francisco is a clean city with a cool, bracing, equable all-year-round open climate. The Daily Mean Maximum Temperature is 62.3 degrees, and the Daily Mean Minimum Temperature is 50.2 degrees, with an average daily range of 12.1 degrees. A study of the air conditions in twenty-three prominent cities in the United States places San Francisco in the front rank, second only to Boston. The sun shone sixty-six out of every one hundred possible hours, according to the Weather Bureau Records, for a period of more than 20 years.

STREET AND AVENUE GUIDE

SAN FRANCISCO

1936

Copyright, 1936, by R. L. Polk & Co.

EXPLANATIONS

In the following list the streets are arranged in alphabetical order.

According to the method adopted in this city for numbering buildings, Market Street is the starting point for numbers on all streets running from it in a northerly, southerly or westerly direction, and the water front for all streets running therefrom in a westerly or southwesterly direction. The numbers on all streets not commencing at Market Street or the water front run in conformity with the numbers of the main streets running parallel with them, except in the case of a few streets which are numbered in an irregular manner.

On all streets between the water front and Central Avenue the even numbers are on the right-hand side, and the odd numbers on the left, starting from the point of beginning. Beyond Central Avenue most of the streets have been numbered in a contrary manner. One hundred numbers, or as many thereof as are necessary, are allotted to each block bounded by main streets; for instance, Montgomery Street commences at Market, and the main streets crossing as you proceed north are Sutter, Bush, Pine, etc. Therefore, any numbers between 1 and 100 will be found on the right or left-hand side of the street between Market and Sutter, between 100 and 200 from Sutter to Bush, between 200 and 300 from Bush to Pine.

In the streets which are numbered, a dash (—) indicates that the cross street does not extend to that side; (o), the street borders on the bay, or public park, cemetery, etc., consequently there are no buildings on blocks thus designated; (c), the street is not opened through the block, or is interrupted in its course at that point by a public square, cemetery, etc.; (e), end of street.
